Steve Lobb, Public Works Director addressed the Council regarding the Center St. Project and the plans to address the Webster St. ADA Compliancy with the sidewalk and stairs and if nothing were changed the City could address this later. But then IDOT received a formal complaint letter from a citizen and so now it must be addressed. After months of discussion IDOT approved a set of plans and said everything looked good unless there is a complaint. Steve turned the meeting over to Terry Fountain, Project Engineer with Cummins Engineering Corporation who also addressed the Council regarding the Plans for Webster St. ADA Compliancy that was placed On File. He went over the plans with Council. The cost will be just under \$88,500.00. He talked to two of the property owners about a temporary easement to reduce the amount of the retaining wall and they agreed and that could be a savings of \$12,000.00 which would reduce the cost to around \$76,000.00. This project is 80% Federal Aid and 20% City dollars. Steve Lobb and Terry Fountain answered questions from the Council on the project.
